Dear Mr. Cate:

Re: Ground Water Permit No. G2-28425

We are in the process of updating our records and it has come to our attention you have not submitted a completion of construction form for your project.

If the work has been completed on your project, please complete the enclosed form. If not, you must request an extension of time to complete your project. Please submit a statutory extension fee of \$5.00 payable to the Department of Ecology along with the request to extend your permit for one year.

By statute, projects under permit must be pursued with diligence, and good cause for granting an extension must be shown. A report of progress made during the past year must be included with your request for extension.

If you have any questions regarding this matter, please call me in Olympia at (360) 407-0240.

Sincerely,
